Customer Application Form

Email Exception Alerts make managing your account easier than ever before.

By registering for Motorpass Email Exception Alerts, every business day you will receive a report outlining any exceptions that have been identified from transactions processed the previous day.

The following is a detailed description of the transaction criteria for which you can elect to receive Email Exception Alerts. To nominate any of the below criteria, simply complete the application form and return it to Motorpass. Email Exception Alerts transaction criteria includes:

- **Odometer Missing** - All transactions that do not have an odometer reading recorded at the point of sale.
- **Odometer Incorrect** - Any transaction where the odometer reading provided is not reasonably correct, e.g.:
 - Odometer reading provided is less than previous odometer (where the transaction date is after the previous odometer date).
 - Odometer reading is over 10,000kms and has a variance greater than 5% from the previous reading.
 - The average kilometres traveled since the last odometer reading is greater than 2000km per day, over more than 1 day since the last odometer reading date.
